

**Alaska Mountain Guides  
International Inc.**

## **Why kayak with Alaska Mountain Guides in Baja?**

**Experience:** We have been leading the highest quality kayaking trips since the mid 90's. We hold one of only 2 permits for overnight kayaking trips in Glacier Bay National Park, Alaska and have operations in 2 locations on the Inside Passage. We are a registered Mexican corporation and offer kayaking in both The Caribbean Sea and the Sea of Cortez. We also operate university accredited kayak guide training and outdoor leadership programs for the International Wilderness Leadership School. Our kayak trips have been featured in Canoe and Kayak, National Geographic Adventure and Backpacker magazines.

**Highest Level of Service:** Alaska Mountain Guides and our Mexican company, Mexico Adventure Guides (MAG) work together to offer you the very best possible service in Baja. AMG offices in the states are always available with a toll free number to answer all of your questions and take care of the details. When you arrive in Mexico, our MAG team will meet you at the airport and prepare you for a kayaking trip of a lifetime.

**North American Guides on Every trip:** In addition to a highly skilled team of Mexican guides, cooks, and skiff drivers, one of our North American guides accompanies every trip. This insures that the trip is run at the highest level of quality and is guaranteed to exceed your expectations.

**Value:** As a Mexican corporation we have our own permits and run our own trips. Most of our competitors do not. Mountain Travel Sobek, Oars, Wilderness Travel, REI Adventures, and others are simply reselling someone else's trip. This makes their prices higher and doesn't allow for the same level of quality control.

**Local knowledge, International Service and Quality:** We offer the best of both worlds: A local staff that is intimate with the culture and nature of Baja, combined with the quality control and attention to detail of an award winning international operator.

**Safety:** Medically trained American guides on every trip, skiff support throughout, communications equipment and the highest level of sanitation.

**Permitted and Insured:** We are fully permitted to operate in Baja and all of our trips are fully insured.

**Paddling throughout Alaska, Baja, and the Caribbean**
